JAPS SEND BACK HOME FOR "PICTURE BRIDES".

HONOLULU, T. H.,—High wages and liberal bonuses being paid plantation laborers, have enabled many Japanese to send to the motherland for "picture brides," scores of whom are arriving here on each liner from the Orient. Two steamers which reached here recently landed 119 Japanese girls and as many groom-to-be were waiting for them at the doors of the immigration and health stations. As soon as a girl passed the examination she was joined by her prospective christian minister or Buddhist priest for the marriage service. Six "picture brides" came from Korea on the last liner.

The purpose of the National War Savings committee is to create an army of savers who will, by saving, release labor and materials for the use of the government in the war, and who will lend their savings to the government to prosecute the war.

## STOP CATARRH! OPEN NOSTRILS AND HEAD

Apply Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate thru every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more yawning, snuffling, blowing; no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a do-something-quick.

## GERMANS WILL NEED MANY WONDER PLANTS

NEW YORK, Oct. 24.—A tomato-potato is the latest "wonder" of German horticulture according to German newspapers received here. According to their accounts, tomatoes and potatoes have been raised on one plant. On a strong branch of a potato plant was grafted a shoot of a tomato plant. After process of hardening which required one month the grafted plant was set out in the open.

From sixteen such plants it is stated 43 pounds of tomatoes and 35 pounds of potatoes were gathered. The plants require only a rich loose warm soil, much sunshine and ordinary care. German papers say the achievement is not astonishing as the tomato and the potato belong to the same plant species that of solanum.

## HUN PRISONERS WELCOME THEIR NEW COMRADES

BEHIND BRITISH LINES IN FRANCE, Oct. 24.—When the British were bringing back hundreds and thousands of prisoners in the last advance to the Hindenburg line often times batches of prisoners already in the cages would laughingly welcome a new contingent. One cage was situated in a ravine and the Germans could see more prisoners coming over the brow of the hills. As crowds of them came in sight cheers would go up from the prison cage and as the men arrived at the enclosure they would be greeted with handshakes and smiles.

## AMERICAN PROPAGANDA SPREAD IN FAR EAST.

ANCHORAGE, —(Correspondence of the Associated Press) Those of the American army contingent stationed here who speak Russian are press agents for Uncle Sam. In the troops selected for Russian service were many of Slavic birth, who are reviving their old language now and using it with the pretty Russian girls and more important, with the Russian workmen who are inclined to think, sometimes, that the allies are quite imperialistic.

In odd moments between guard duty one finds American soldiers telling Russians that the United States is here to help them, and that's all.

## Subscriptions Must Be Paid In Advance

In compliance with the ruling of the pulp and paper section of the War Industries Board regarding the conservation of newsprint paper, all subscriptions must be paid for in advance before delivery can be made.

Following is the new ruling of the War Industries Board, Washington, D. C., with reference to subscriptions:

"Discontinue sending papers after date of expiration of subscription, unless subscription is renewed and paid for." This ruling is now in effect.

We ask your patriotic co-operation with us in complying with this war-time measure of our government by paying the carrier boys promptly when they call the first of the month. Otherwise, we have no discretion in the matter but to discontinue the paper. Beginning November 1st, carriers will collect for the paper for the current month in advance, instead of for the month past, as has been the custom.

## DEMANDS FOR FUEL OIL ARE FAST GROWING

The demands of the war for fuel oil are continually increasing, according to the review. Petroleum stocks in the United States were reduced by 3,034,635 barrels during the first six months of 1918. With heavy increases in shipping, many of the new ships being oil burners, a further demand may be expected. At least 3,500,000 barrels of Mexican oil per month has been used in the past in connection with the military and domestic needs of the United States and estimates of the present need, place the requirements high as 4,000,000 barrels a month. In addition, the navies of the allies—especially the British—require fuel oil, mostly obtained from Mexico, to keep them on the high seas.

## OIL PATCHES ON SEA NOW CHARTED.

LONDON, Oct. 24.—Even oil patches on the sea are charted these days. A sunken submarine may emit oil for weeks. To guard against navy aerial patrols wasting bombs on submarines already finished, a record of such cases is kept and shown on maps kept up-to-date.

Aviators are patrolling the same section of water for days become accustomed to these "permanent" patches and waste no time on them. A man over new water however, must frequently consult his map.

## ROYAL AIR FORCE IS POPULAR AMONG BRITISH.

LONDON, Oct. 24.—Popularity of the Royal Air Force is emphasized at the recruiting office here. The military age minimum is seventeen years and ten months. So many youths under age attempted to join, that it has become necessary to require birth certificates with each application.

## COUNT FIFTY! NO RHEUMATIC PAIN

DON'T SUFFER! INSTANT RELIEF FOLLOWS A RUBBING WITH OLD "ST. JACOB'S LINIMENT"

Stop "doing" rheumatism. Its pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Liniment" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Liniment" conquers pain! It is a harmless rheumatism liniment which never disappears and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia and reduces swelling. Limber up! Get a small trial bottle of old-time, honest "St. Jacobs Liniment" from any drug-store, and in a moment you'll be free from pains aches and stiffness. Don't suffer! Rub rheumatism away.—Adv.

## Prof. Pernot Tells Preventive Steps For Spanish Grip

Professor E. F. Pernot, city bacteriologist, gives the following advice to those who would be free of Spanish influenza:

"I am of the opinion that an excellent and safe preventive of the Spanish influenza would be to take nasal douches and gargles twice daily of a weak solution of calcium hypochlorite.

"There is a very excellent preparation of this on the market under the proprietary name of 'B-K.' This is a very strong solution, and could be used in the proportion of 10 to 15 drops of the solution to one-half glass of water for spraying the nostrils or gargling the throat.

"I suggest this because the solution is about ten times as strong as carbolic acid, and not injurious to the tissues.

"The calcium hypochlorite is much used in the purification of drinking water in a strength of from three to five pounds to 1,000,000 gallons, and destroys all bacteria.

The chemical is a powerful oxidizer, which, when it comes in contact with organic matter, liberates a nascent oxygen that kills the bacteria instantly, because all bodies are of organic matter. Calcium hypochlorite is not injurious to the health in the weak solution that is used." (Interview in Telegram.)

"B-K" is also recommended by health officials as an antiseptic for wounds, sores and veterinary operations.

For sterilizing cans, bottles, milking machines, coolers and filters.

For disinfecting sinks, drains, cellars, ice boxes, cows' udders and milkers' hands.

For deodorizing barns, dairy houses, poultry houses, etc.

"B-K" whitens linen, diapers, dish rags and mops.

Note These Remarkable Qualities of B-K

Powerful—By government method test, B-K has over ten times greater germ-killing strength than carbolic acid. Much stronger than coal tar disinfectants—much safer.

Safe—B-K contains no poison, acid nor oil—safe, internally and externally. May be used in drinking water.

Clean—B-K is colorless, leaves no stain on cattle, floors or walls.

Deodorant—B-K destroys foul odors—leaves no odor of itself.

Cheap to Use—B-K is so much stronger than other disinfectants that it does more disinfecting for the same money.

War Department Orders on Gifts to the A. E. F.

You must follow these instructions, or your Christmas packages for the soldier in France will not be accepted for transportation.

Only one package will be allowed for each soldier. Each enlisted man and officer will receive an official coupon to be sent to the folks at home. It will have his address on it, and it must be pasted on the package. A standard container, 2 1/2 inches, must be used. Get it from the Red Cross. Pack it and then take it back to the Red Cross unwrapped and unsealed for inspection. After inspection, wrap and seal the package with your official coupon, in the presence of the Red Cross inspector. Put on enough stamps to take the package to Hoboken, N. J. Get it there as soon as possible. Packages will not be accepted for transportation after November 15th. Don't put in the package liquor, anything that will explode or ignite, liquids or fragile articles improperly packed. Gifts should be wrapped in khaki-colored handkerchiefs 27 inches square. May we be of service to you in selecting your gift for your loved one in France?

a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 5-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store or ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application of two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite, and is not intended for the cure, mitigation or prevention of disease.—Adv.
